FIST: Future Integrated Soldier Technology, through the use of computers and weapon-mounted cameras, allows a soldier to pinpoint shots and make a mockery of cover. Any model in cover targeted with the L85A2 will only receive a +1 bonus to its Target and Kill scores. In addition, all models in this unit have a command range of 12", rather than the usual 6". Models will also ignore the effects of smoke (see main rulebook).

Command: So long as the Lieutenant and Radio Operator remain on the table and within 2" of each other, one friendly unit per turn may be given a bonus third action. A unit can only take one bonus action, no matter how many Lieutenants and Radio Operators are on the table. Only one Command Section may be purchased for every 2,000 points or part of in the army.
